

Product & Go-to-Market Roadmap

From Funded to Revenue in 18 Months

2026

18-Month Timeline

Building the Team

David Suarez — CTO	\$180K/yr (\$270K/18mo)	Day 1
Co-founder. Leads all engineering, AI/ML architecture, and product development. Built the entire KOSIQ platform from data pipelines to predictive analytics.		
Backend Engineer	\$120–150K/yr	Month 1
EHR integration specialist. Builds and maintains FHIR/HL7 data pipelines, real-time claims ingestion, and API infrastructure. Critical hire for connecting to eCW, Epic, and athenahealth.		
Sales Rep #1	\$100–150K + commission	Month 4
First revenue hire with healthcare SaaS sales experience. Targets South Florida managed care networks, builds pilot relationships, and establishes the enterprise sales playbook.		
QA Engineer (contract)	\$40–60K (3-month contract)	Month 6
Security testing, compliance validation, and SOC 2 Type I audit preparation. Ensures platform meets HIPAA technical safeguards before first client goes live on production data.		
Frontend Engineer	\$100–130K/yr	Month 9
Owns the customer-facing experience — dashboards, analytics visualizations, reporting interfaces, and workflow tools. Ensures the platform is intuitive for non-technical clinical staff.		
Sales Rep #2	\$100–150K + commission	Month 9
Scales the sales motion nationally. Focuses on larger managed care groups (20K–60K+ members) and payer partnerships while Rep #1 manages existing accounts and regional pipeline.		
Customer Success Manager	\$80–100K/yr	Month 9
Owns onboarding, training, retention, and expansion revenue. Ensures customers achieve measurable outcomes — reduced PMPM, improved Star Ratings, and higher quality bonuses.		

18-Month Budget

PEOPLE

David Suarez (CTO)	\$270K
Backend Engineer	\$180–225K
Frontend Engineer (Mo 9+)	\$75–100K
QA Engineer (contract)	\$40–60K
Sales Rep ×2	\$200–300K + commission
Customer Success Mgr (Mo 9+)	\$60–75K

INFRASTRUCTURE

Cloud (AWS/GCP)	\$54–90K
Security & Compliance	\$25–40K
Dev Tools & Licenses	\$18–27K

GO-TO-MARKET

Marketing & Content	\$36–54K
Conferences & Events	\$22–38K
Legal & Professional	\$20–30K

18-MONTH TOTAL

\$1.36 – \$1.90M

Revenue Milestones

MONTH 18 ANNUAL RUN RATE
\$1.74M ARR

Revenue driven by 25 customers across PMPM subscriptions (\$0.50–\$2.24/member/month) and integration services (\$10K–\$20K/month). 98%+ gross margins. Projections are intentionally conservative.

Path to Cash-Flow Positive

18+ months of runway on \$2.5M seed

Conservative burn assumptions with revenue accelerating through months 12–18. Cash position stabilizes as customer revenue offsets operating costs. Series A pursued from a position of strength — with proven product-market fit, paying customers, and a clear path to profitability — not desperation.
